

Next steps

- Prepare a use case document to be presented at the MB
 - Starting point will be the use cases collected already
 - https://twiki.cern.ch/twiki/bin/view/EGEE/WLCGISEvolution#Use_Cases
 - People will be contacted to provide all the necessary details
 - If there are use cases that do not exist yet but there is interest on them, please let me know!

Other things to be presented in future meetings

- Authoritative sources of Information
 - OSG plans to substitute BDII
 - EGI plans to support BDII/GOCDB
 - NDGF plans to support BDII
- GLUE in WLCG
 - What are WLCG plans with GLUE if OSG does not plan to publish GLUE 2?
 - What do we do with existing client and validation tools that depend on GLUE 1 or GLUE 2?
