

Session Program

17-18 Nov 2008

3rd CHIPP Swiss neutrino workshop

Small and medium-scale R&D for neutrino experiments (II)

ETH Zurich, Building HIT - Room E 51 (Mehrzweckraum Auditorium Siemens)
Wolfgang Pauli Str. 27 ETHZ Hönggerberg Campus, Swiss Federal Institute of Technology CH-8093
Zürich

Tuesday 18 November

14:00

Small and medium-scale R&D for neutrino experiments (II)

Session |

Location: ETH Zurich, Building HIT - Room E 51 (Mehrzweckraum Auditorium Siemens), Wolfgang Pauli Str. 27 ETHZ Hnggerberg Campus, Swiss Federal Institute of Technology CH-8093 Zrich

14:00-14:30

ArgoNeut and MicroBOONE at FNAL

Speaker

Prof. Carl Bromberg

14:30-15:00

The GLACIER concept and associated R&D for next generation neutrino physics and proton decay detectors

Speaker

Alberto Marchionni

15:00-15:20

Analog and digital R/O electronics for large LAr TPCs

Speaker

Dario Autiero

15:20-15:40

ArgonTube

Speaker

Biagio Rossi

15:40-16:00

MicroMeGas TPC R&D for T2K

Speaker

Andrea Ferrero

16:00
