

## **Session Program**

**15 October 2015**

### **Joint LIU / HL-LHC meeting**

***Session 5 - Other possible non-baseline improvement towards reaching target goals (beam parameters and luminosity) and implications***

CERN, 774/R-013

## Thursday 15 October

17:15

### Session 5 - Other possible non-baseline improvement towards reaching target goals (beam parameters and luminosity) and implications

Session | Location: CERN, 774/R-013 | Conveners: Gianluigi Arduini, Brennan Goddard

17:15-17:35

#### Further Impedance reduction in the injectors: What can it bring us? - 15'+5'

**Speaker**

Benoit Salvant

17:35-17:55

#### Lower or higher harmonic RF system in LHC - 15'+5'

**Speaker**

Juan Esteban Muller

17:55-18:15

#### Wide-band feedbacks - 15'+5'

**Speaker**

Kevin Shing Bruce Li

18:15-18:35

#### Different bunch/batch schemes - 15'+5'

**Speaker**

Heiko Damerau

18:45
