Cogeneration and Pre-annihilation of Dark Matter by a New Gauge Interaction

Thursday 10 September 2015 14:20 (20 minutes)

Sphalerons of a new non-Standard Model gauge interaction can
cogenerate dark matter and baryonic matter. They can also wipe out
the symmetric component of the dark matter by a process of “pre-annihilation.”

Presenter: BARR, Stephen (University of Delaware, United States)

Session Classification: Dark Matter
