

FCC Week 2016

Wednesday, 13 April 2016

16T dipole development: Protection - Adriano (13:30 - 15:00)

-Conveners: Toru Ogitsu

time	[id] title	presenter
13:30	[49] Development of 60-mm aperture Nb3Sn dipole demonstrator for FCC at Fermilab	BARZI, emanuela
13:50	[279] development of CCT Nb3Sn dipole	CASPI, Shlomo
14:10	[78] Analysis of the requirements for the quench protection in the 16 T Nb3Sn dipole designs	SALMI, Tiina
14:30	[83] Comparison of magnet designs from a circuit protection point of view	VERWEIJ, Arjan
