

Session Program

3-5 Jul 2006

Europython 2006

Refereed Papers

CERN, Geneva

Monday 3 July

09:00

Refereed Papers

Session | **Location:** CERN, Geneva, 40-SS-D01

09:00–09:30

The Python interpreter as a framework for integrating scientific computing software-components

Speaker

Prof. Michel Sanner

09:30

Tuesday 4 July

09:00

Refereed Papers

Session | **Location:** CERN, Geneva, 40-SS-D01

09:00–09:30

An Introduction to Test Driven Code Generation

Speaker

Dr Raphael Marvie

09:35–10:05

Developing Ambient Displays for Collaborative Work

Speaker

Dr Rod McCall

10:10–10:40

PyJIT: dynamic code generation from runtime data

Speaker

Mr Simon Burton

10:40

Wednesday 5 July

09:00

Refereed Papers

Session | **Location:** CERN, Geneva, 40-SS-D01

09:00–09:30

Pyphant - A Python framework for modelling reusable data processing tasks

Speaker

Mr Klaus Zimmermann

09:35–10:05

Deep Integration of Python with Semantic Web Technologies

Speaker

Mr Marian Babik

10:10–10:40

Implementation of a Transaction-based Peer-to-Peer Protocol

Speaker

Ms Sofia Nygård

10:40
