WORKSHOP WRAP-UP

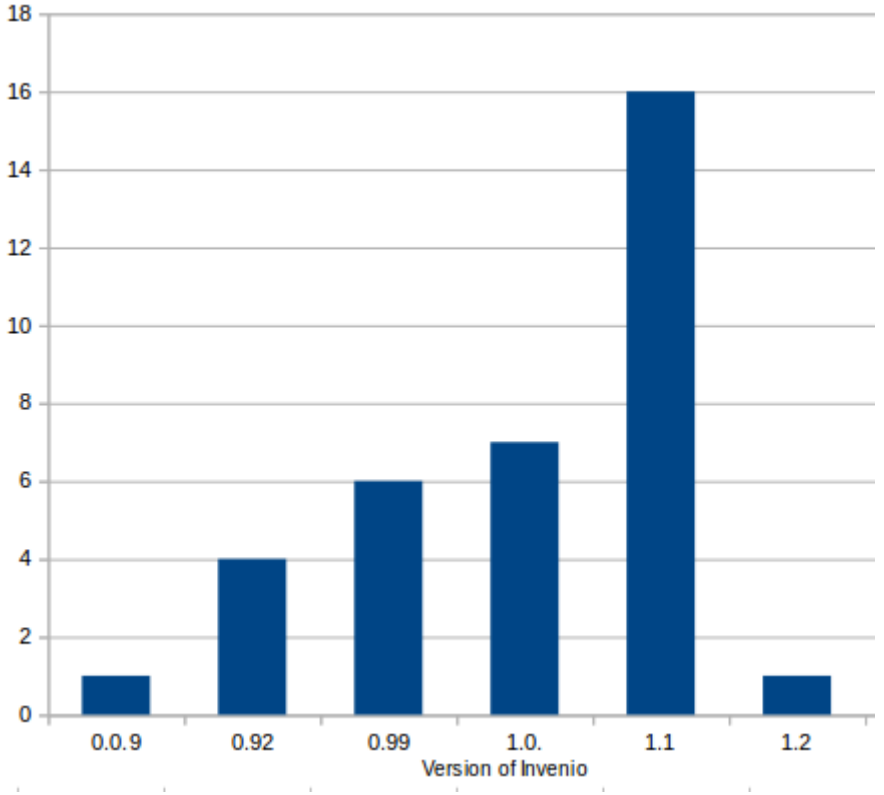
A challenging turn to the new INVENIO

CERN and challenging turns !

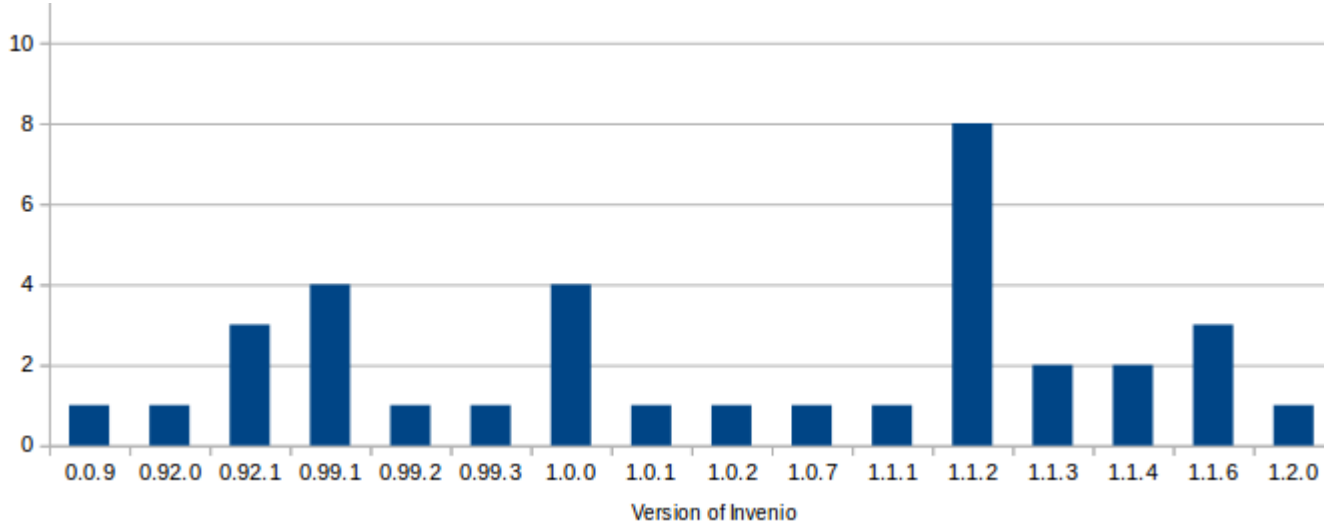
Should we trust the driver ?

Starting from user input:

The current Invenio versions distribution



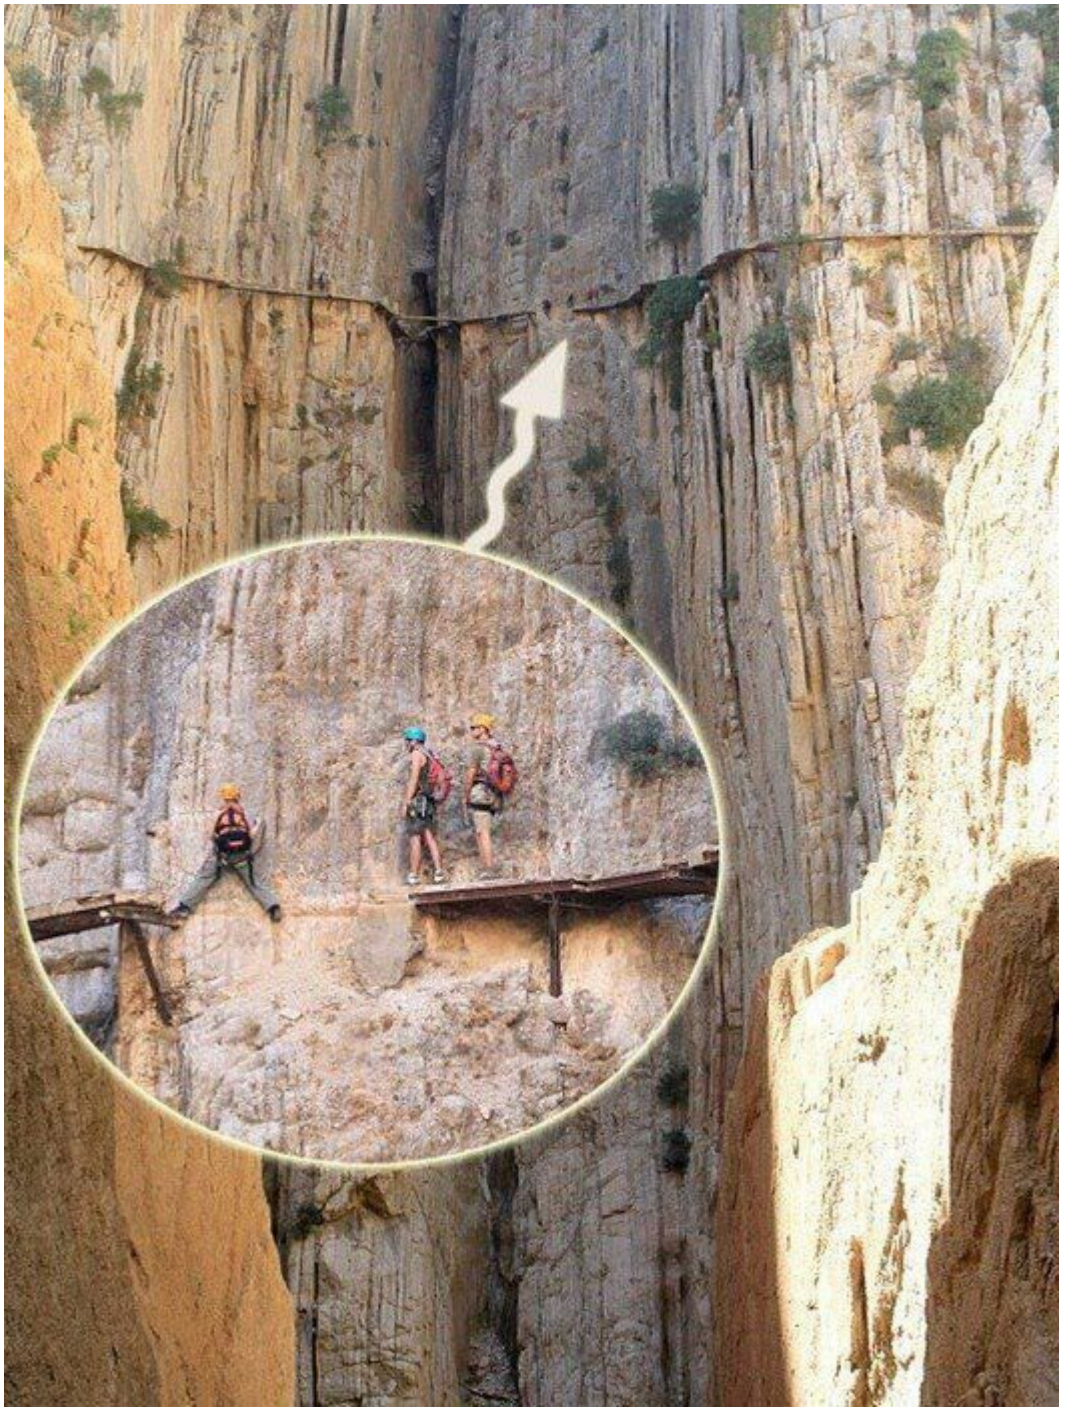
invenio 0.9.x or 1.x



Users perception

Where are we going ?

NEW INVENIO

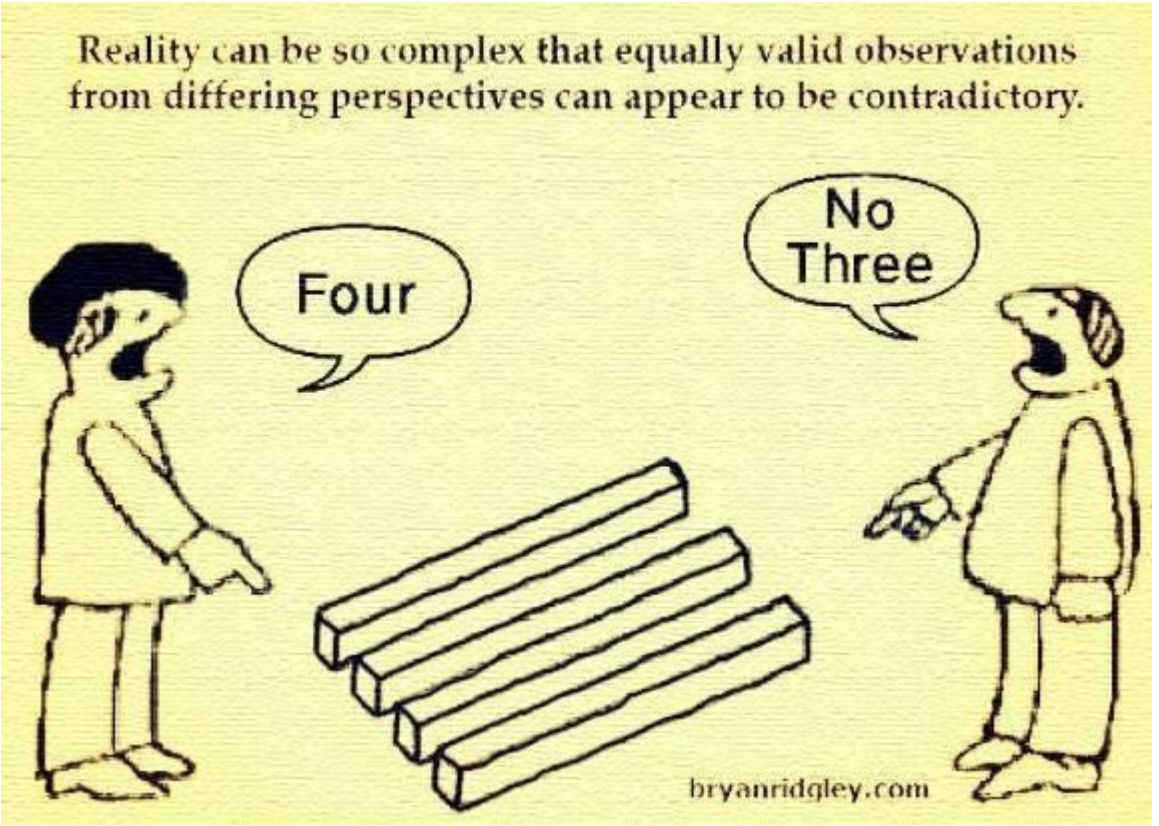


Don't worry about installation any more...

Just use Docker !

Just use virtual environment !

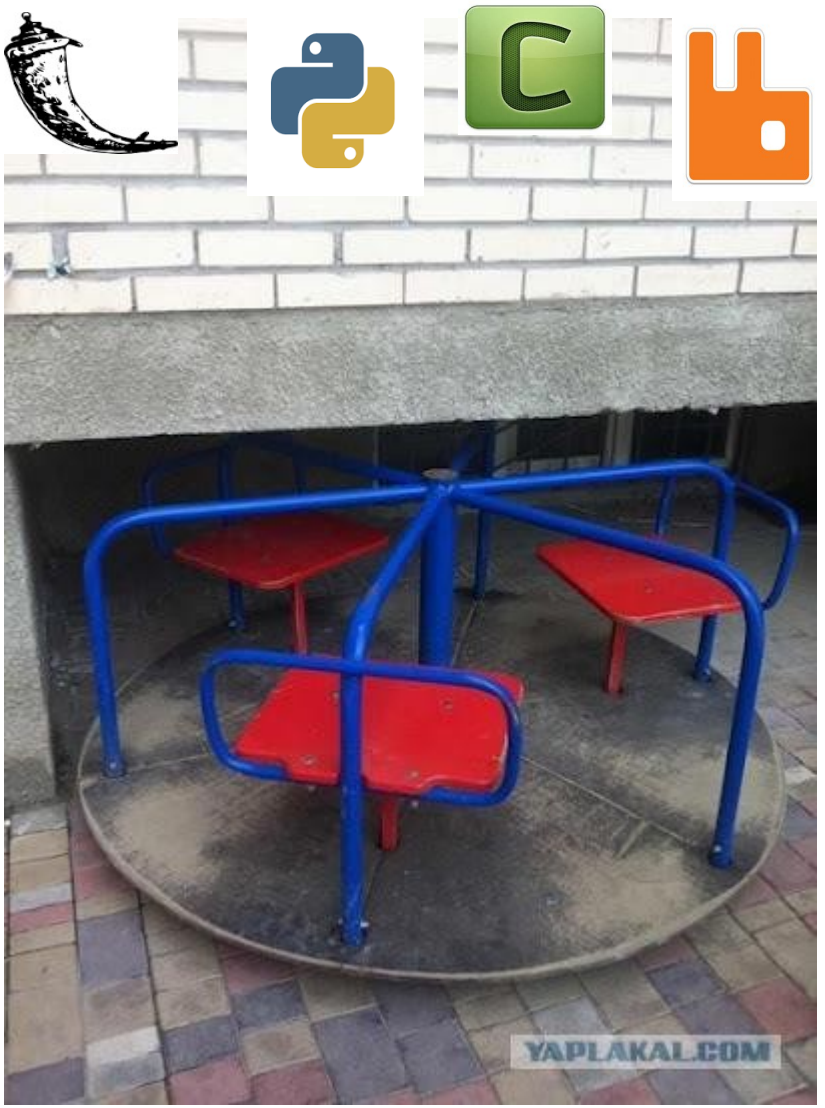
Just use Puppet !



http://invenio.readthedocs.org/en/latest/installation/

Moving to the cutting edge

with the NEW technology

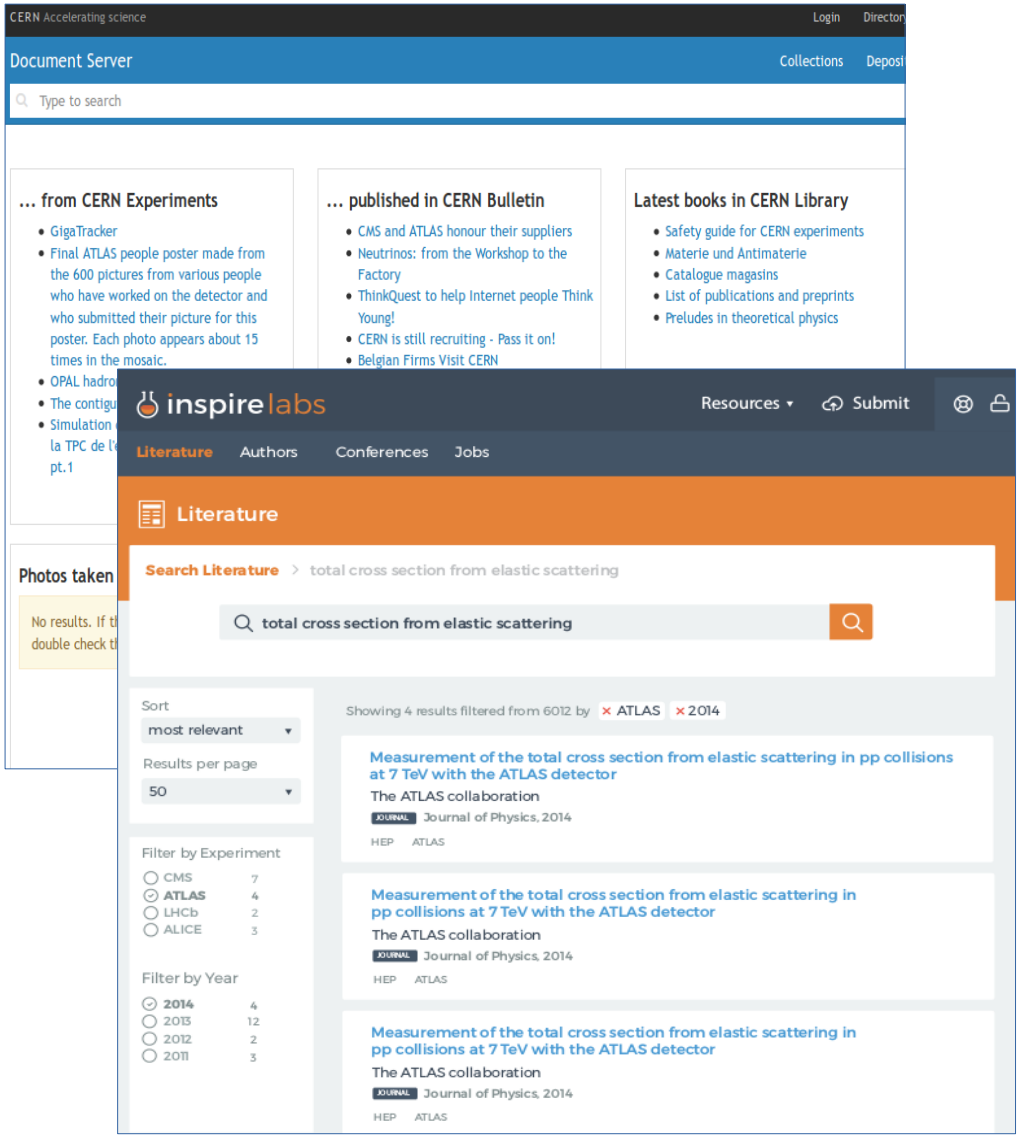


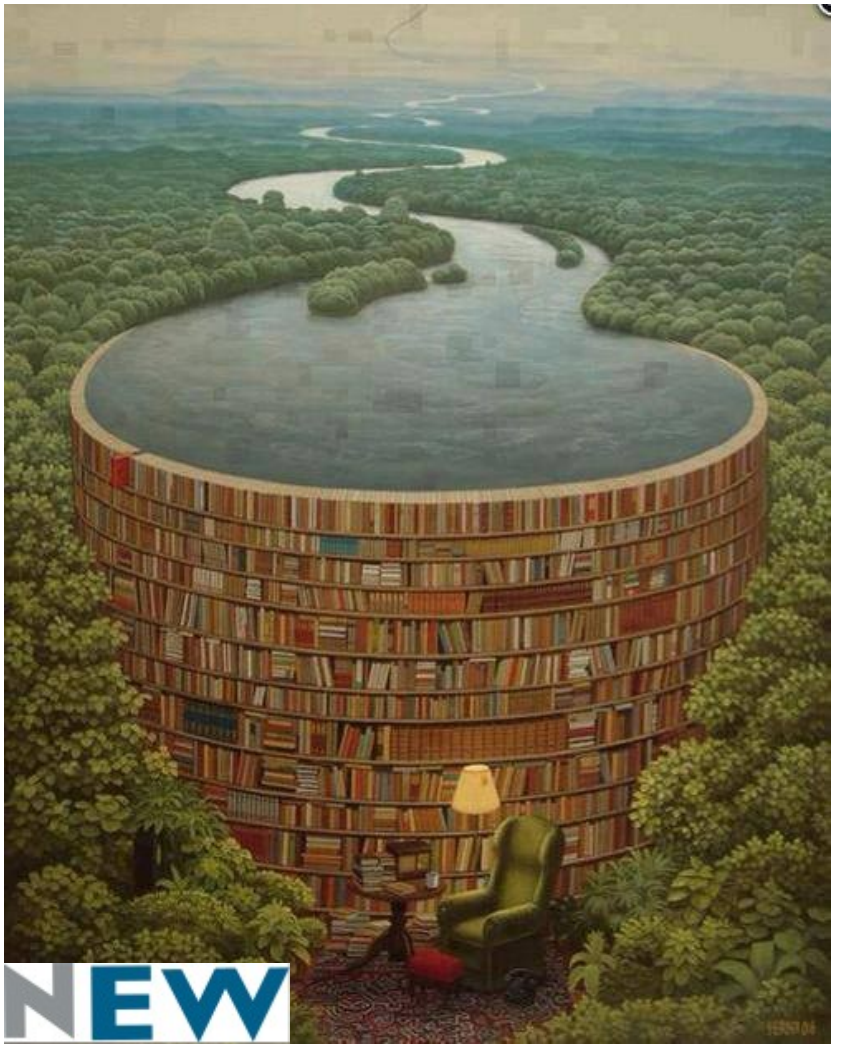
Invenio 2.0 and the magic overlays

Yes you can: Research Data instances have proved it
at CERN, in EU & world-wide

You have to develop NEW overlays

Invenio-master paves the way to 3.0





More nice developments ahead

Welcome to Obelix, Beard, Grobid and more NEW modules

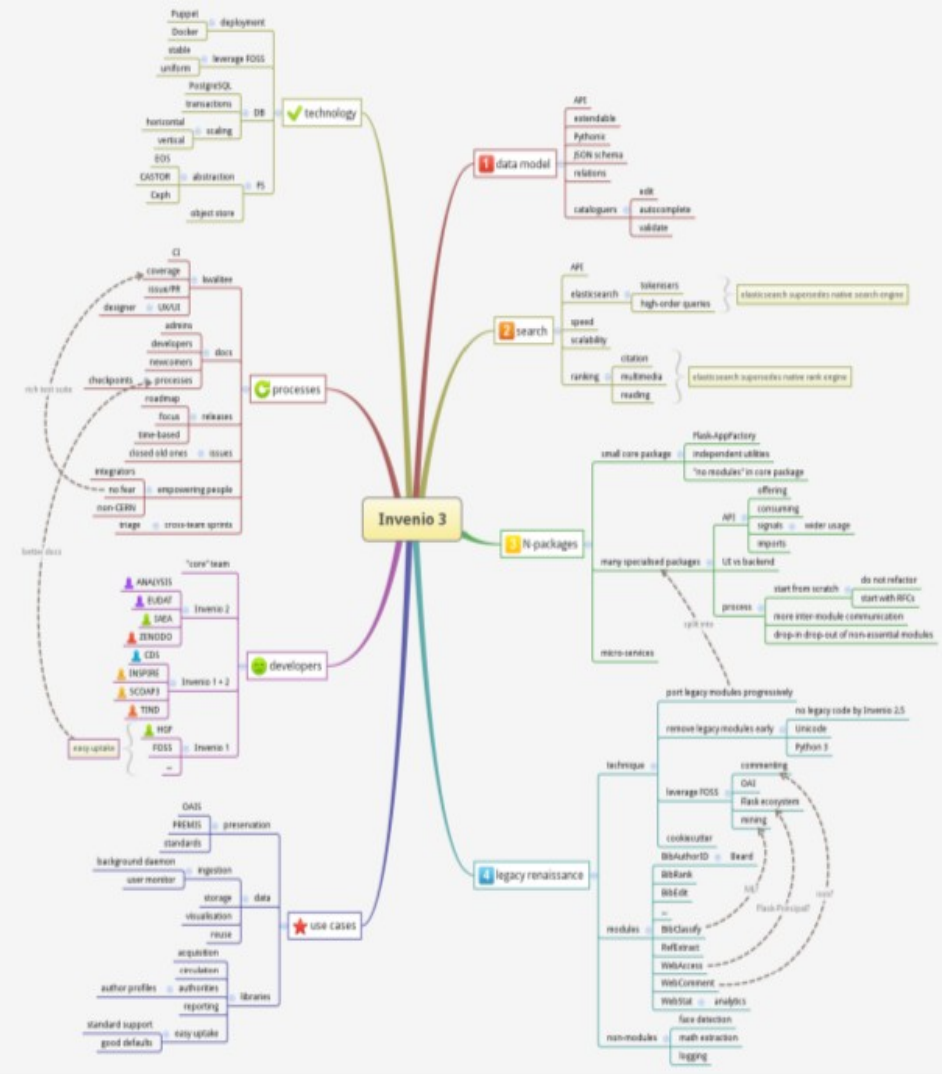
Looking forward to ride them !

Hands-on sessions

→ *Install*
→ *Play with technology*
→ *Set data model*
→ *Customize workflow*
→ *create a new module*

Not so easy to catch but everyone can pick up crumbs!

Remember the watch !



Happy flying
