## Plans for the Track Trigger Discussion

### Track Trigger Discussion on Thursday at 14.00

- Proposed Baseline Approach to Track Triggering System
- Proposed Scope of the Project

- **Issues:**

- |  |                        |
|--|------------------------|
| • Sensor Design                        | Front-End Electronics  |
| • On Module Processing Technology      | Interconnection        |
| • On-Rod Data Transmission             | On-Rod Processing      |
| • Off-Rod Data Transmission Processing | Off Detector           |
| • Power Systems                        | Cooling Systems        |
| • <del>DAQ Systems</del>               | <del>DCS Systems</del> |
| • Safety Systems                       | Mechanical Layout      |
