

WLCG Draft Data Management Plan – Annex 3

This draft data management plan has been prepared according to the H2020 (and other) guidelines for input to the DPHEP Workshop in Lisbon in February 2016: <https://indico.cern.ch/event/444264/>.

“Virtual Annex 3” Guidelines		
Guideline	Guidance	Suggest Response
What is the relationship between the data you are collecting and any existing data?	Source – NSF DMP guidelines	For each LHC experiment, a short summary of the relationship(s) should be possible, in a similar way to Belle / BaBar DP presentations at DPHEP workshops explain their relationship. Something from the Technical Proposals? Something for the DPHEP portal? (http://hep-project-dpheap-portal.web.cern.ch/)
Requirement #2: DMPs should provide a plan for making all research data displayed in publications resulting from the proposed research open, machine-readable, and digitally accessible to the public at the time of publication. <ul style="list-style-type: none"> <i>This includes data that are displayed in charts, figures, images, etc.</i> <i>In addition, the underlying digital research data used to generate the displayed data should be made as accessible as</i> 	Source – DoE DMP guidelines	HepData and (much) more

<p><i>possible to the public in accordance with the principles stated above.</i></p> <ul style="list-style-type: none"><li data-bbox="240 387 502 981">• <i>This requirement could be met by including the data as supplementary information to the published article, or through other means. The published article should indicate how these data can be accessed.</i>
