

## Session Program

11-13 Apr 2016

## 2nd Anisotropic Universe Workshop: Unveiling the Anisotropic Universe

### *Morning session (2)*

Amsterdam

# Tuesday 12 April

10:35

## Morning session (2)

Session | Location: Amsterdam | Convener: Miguel Sánchez-Conde

10:35-10:55

### Dissecting the high-latitude gamma-ray sky with photon-count statistics

**Speaker**

Dr Hannes Zechlin

10:55-11:15

### High-energy Astrophysics in a single pixel

**Speaker**

Michael Feyereisen

11:15-11:35

### Updated measurement of gamma-ray anisotropies

**Speaker**

Mattia Fornasa

11:35-12:15

### Tomography of the Fermi-LAT diffuse extragalactic signal via cross-correlation with galaxy catalogues

**Speaker**

Alessandro Cuoco

12:15-12:35

### Anisotropic Universe unveiled with new galaxy catalogs

**Speaker**

Maciej Bilicki

12:35
