

## Collimation System Performance

*Monday 25 January 2016 11:00 (30 minutes)*

<p>The beam cleaning performance of the collimation system at 6.5 TeV and its evolution over the year will be presented. Collimation setup and validation procedures will be presented, including the gain from the embedded beam position monitors. </P>

**Presenter:** SALVACHUA FERRANDO, Belen Maria (CERN)

**Session Classification:** Session 1: Lessons from 2015

**Track Classification:** Session 1: Lessons from 2015
