

On the optimum choice of the geometric beta of the sc cavities

Thursday, 11 December 2008 14:00 (15 minutes)

Make recommendation on geometrical beta based on beam dynamics issues, in view of the impact on power dissipation, max. gradient, and required equipment (high pressure water rinsing, electropolishing, ...)

Presenter: GERIGK, Frank

Session Classification: Working Group 2 - Session 1 (with WG 4)
