Future:

-
- FCC Week 2016, April 11th-15th Rome.

Notes:

- All in all, 14 talks (9 speakers) plus 3 posters since last conveners meeting (22.05.15); ??? projected ones.
- All slides will be in the web site: <http://lhec.web.cern.ch/>.
- It is worth asking speakers, after conferences, to send a link to Alessandra.
- Some success in finding new speakers (2/9).
- **But we need more!!!**
- Personal comment: due to the huge number of conferences and irrational scheduling of them, finding speakers is becoming extremely difficult e.g. CMS cancelled 6 talks for QCD@LHC!!! This is to be taken into account for programming workshops.
