Machine Learning for the LHC Distributed Data Placement and Track Finding

Monday, 7 December 2015

Data Placement (15:30 - 18:30)

-**Conveners: Alexei Klimentov**

time	[id] title	presenter
15:30	[5] Data Placement Policy Evolution in ATLAS	KLIMENTOV, Alexei LASSNIG, Mario
	- [1] Computing Model (from Monarc to "mesh")	
	- [2] Data formats and data popularity	
	- [3] PD2P - PanDA Dynamic Data Placement : concept and realization	
	- [4] Rucio : Architecture overview	
	- [5] ATLAS Data (Run1, Run2 and beyond)	
	- [6] Sources of (data) meta-information	
	- [7] Topics of interest	
16:10	[6] Data Placement and Data Handling in LHCb	USTYUZHANIN, Andrey HUSHCHYN, Mikhail
17:10	[12] Data Placement simulation and Distributed Computing Simulation - round table discussion
