

11th "Trento" Workshop on Advanced Silicon Radiation Detectors

Monday, February 22, 2016

Planar 1 - Amphitheatre de recherche George Charpak (4:15 PM - 6:00 PM)

-Conveners: Marko Mikuz

time	[id] title	presenter
4:15 PM	[147] Recent results with hybrid pixel assemblies for the CLIC vertex detector	NURNBERG, Andreas Matthias NURNBERG, Andreas Matthias
4:35 PM	[148] Silicon pixel tracking detector with ultra-precise time resolution	FIORINI, Massimiliano
4:55 PM	[149] X-rays characterisation of pixelated silicon detectors	Dr MANEUSKI, Dima
5:15 PM	[150] The Belle II SVD Origami Modules	PALADINO, Antonio
5:35 PM	[186] Beam test results of highly irradiated planar and 3D pixel sensors for the Phase II Upgrade of the CMS pixel detector	SCHELL, Daniel
