

# 11th "Trento" Workshop on Advanced Silicon Radiation Detectors

## Tuesday, 23 February 2016

### HVCMOS 1 - Amphitheatre de recherche George Charpak (09:00 - 10:30)

-Conveners: Gregor Kramberger

time	[id] title	presenter
09:00	[151] Charge Collection Properties of depleted Monolithic Active Pixel Sensors	BACKHAUS, Malte
09:20	[152] Development of passive pixel sensors using a commercial 150nm CMOS technology on high resistivity silicon	HUEGGING, Fabian HUEGGING, Fabian
09:40	[153] Monolithic CMOS ASIC Developments	CARAGIULO, Pietro
10:00	[187] The first reticle size HV-CMOS sensor demonstrator for ATLAS pixel layers	PERIC, Ivan
