

11th "Trento" Workshop on Advanced Silicon Radiation Detectors

Tuesday, 23 February 2016

HVCMOS 2 - Amphitheatre de recherche George Charpak (14:00 - 15:45)

-Conveners: Cinzia Da Via

time	[id] title	presenter
14:00	[158] TCT measurements of HV-CMOS test structures irradiated with neutrons	MANDIC, Igor
14:20	[159] Investigation on the radiation resistance of HV-CMOS and pin diodes using a Transient Current Technique based on the Two-Photon-Absorption Process	VILA ALVAREZ, Ivan
14:40	[160] SPS Test Beam characterisation results with CCPDv4 capacitively coupled to FEI4	DI BELLO, Francesco Armando
