

Fermi Linux STS - SL 6

Monday, 25 May 2009 10:30 (30 minutes)

Fermi Linux Short Term Support

This project helped fix a problem at Fermilab for bleeding edge hardware.

It also helped the Scientific Linux development team look at what might be possible with Scientific Linux 6.

This presentation will show what we were able to do with Fermi Linux STS, and give some insight into what might be coming with Scientific Linux 6.
