

PASCOS 2016: 22nd International Symposium on  
Particles, Strings and Cosmology  
XIIth Rencontres du Vietnam, July 10-16, 2016,  
ICISE, Quy Nhon, Vietnam

P. Q. Hung

UNIVERSITY OF VIRGINIA

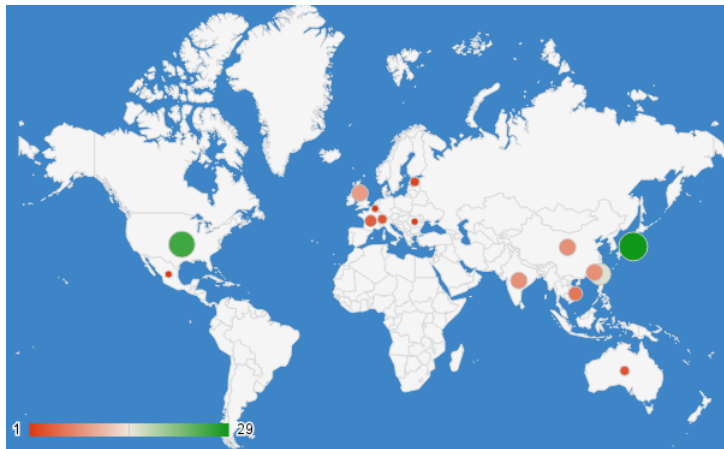

Than Chao, Welcome, Bienvenue, Bienvenido, Benvenuto, Yokoso,  
Huanyng, Hwan-yeong, svaagat he,...!

# An international conference held at an international center

- The participation at PASCOS 2016 is truly international!

# An international conference held at an international center

- The participation at PASCOS 2016 is truly international!

# An international conference held at an international center

- There are 145 participants in total: 29 (Japan), 24 (US), 14 (Taiwan), 9 (UK), 8 (China, India, Korea), 4 (France, Vietnam), 3 (Australia, Germany, Switzerland), 2 (Spain, Thailand), 1 (Belgium, Czechoslovakia, Estonia, Iran, Norway, Pakistan, Romania, Turkey).

# An international conference held at an international center

- There are 145 participants in total: 29 (Japan), 24 (US), 14 (Taiwan), 9 (UK), 8 (China, India, Korea), 4 (France, Vietnam), 3 (Australia, Germany, Switzerland), 2 (Spain, Thailand), 1 (Belgium, Czechoslovakia, Estonia, Iran, Norway, Pakistan, Romania, Turkey).
- As shown in the map, the geographical distribution of participants shows that almost half comes from the Asia-Pacific region.

# A brief history of PASCOS

- Pran Nath from Northeastern University started PASCOS in 1990. He is the boss!

## A brief history of PASCOS

- Pran Nath from Northeastern University started PASCOS in 1990. He is the boss!
- The first two PASCOS conferences (symposia) (1990,1991) were held in Boston and in 1998, 2004.

- The next one (2017) will be held at IFT, Madrid, Spain.

# Physics topics covered at PASCOS 2016

- Neutrino Physics; Dark Matter and Dark Energy; LHC Physics; Precision experiments; Cosmology; Strings; New Accelerators.

# Physics topics covered at PASCOS 2016

- Neutrino Physics; Dark Matter and Dark Energy; LHC Physics; Precision experiments; Cosmology; Strings; New Accelerators.
- There are 41 plenary talks and more than 100 parallel talks.

# Physics topics covered at PASCOS 2016

- Neutrino Physics; Dark Matter and Dark Energy; LHC Physics; Precision experiments; Cosmology; Strings; New Accelerators.
- There are 41 plenary talks and more than 100 parallel talks.
- These talks will cover "recent" discoveries and speculations on the future.

# Things to remember for PASCOS 2016

- DON'T FORGET TO BRING YOUR SWIMMING SUITS! All sessions are terminated at 4:30pm sharp! More than 1 hour of SURF AND SAND everyday!

# Things to remember for PASCOS 2016

- DON'T FORGET TO BRING YOUR SWIMMING SUITS! All sessions are terminated at 4:30pm sharp! More than 1 hour of SURF AND SAND everyday!
- TWO BANQUETS! Both at ICISE: Monday (sponsored by the province of Binh Dinh) and Thursday (Conference banquet).

- Parallel sessions will be held on the SECOND floor (4 rooms) and in the basement (1 room).
- Please sign up for the Wednesday excursion (afternoon) to the Cham temple. (The Cham kingdom used to extend from North of Hue to the South.)

# Acknowledgement

The University of Virginia team (Bob Hirosky and P. Q. Hung) would like to thank Jean Tran Thanh Van and members of the Organizing Committee, Aimie Fong and the staff of the Rencontres du Vietnam for making this meeting happen. Last but not least, all the caffeine ingested at Shenandoah Joe and bottles of Saigon Do at Seagull Hotel certainly help.

# HAVE FUN!
