Running through the winter 2009/10? Is it just a cost issue?

Wednesday, 4 February 2009 09:25 (10 minutes)

As a complement to the previous talk, a number of questions, that will need to be addressed in order to consider LHC beam operation over the winter 2009-10, will be raised.

Presenter: BATZ, Mario

Session Classification: Session 05 - Shutdown Modifications 2008/9 and Future shutdowns
