

GDB

WN SL5 and 64 bit

John Gordon

GDB

Worker Node Migration to SL5

- From Tony Cass' email of March 3rd:
 - “**Every experiment** is interested on a transition to **SLC5/64bit** of the Grid resources **as soon and as short as possible.**”
- Worker node release expected on March 16th
 - Update today
- Sites asked to signal any difficulties that would prevent a **migration by the summer.**

GDB

Site Responses

- What effect will the change to 64 bit have on the memory use of jobs?
- Sites should make test SL5 CE/queue available

GDB

When Ready for LHC?

- ASGC 64 bit already SL5
- BNL
- CERN 10% already 2 Ces. New node o SLC5
- CNAF
- FNAL
- FZK end April
- NL-T1 UI? If mid-april end of summer.
- NDGF - ready
- PIC – test ASAP hope April.
- IN2P3 – Start in June with new WNs
- RAL – end July
- TRIUMF -
