WN SL5 and 64 bit

John Gordon

Worker Node Migration to SL5

- From Tony Cass' email of March 3rd:
  - "**Every experiment** is interested on a transition to **SLC5/64bit** of the Grid resources **as soon and as short as possible**."
- Worker node release expected on March 16th
  - Update today
- Sites asked to signal any difficulties that would prevent a **migration by the summer**.

Site Responses

- What effect will the change to 64 bit have on the memory use of jobs?
