

Session Program

21-24 Mar 2009

2nd France China Particle Physics Laboratory Workshop - FCPPL2009

Experiments at LHC and related theory II

Huazhong (Central China) Normal University, Wuhan, China, Scientific hall (Yi-Fu Bldg.) of CCNU
Institute of Particle Physics, Huazhong (Central China) Normal University, Wuhan 430079, P. R. China

Sunday 22 March

16:30

Experiments at LHC and related theory II

Session |

Location: Huazhong (Central China) Normal University, Wuhan, China, Scientific hall (Yi-Fu Bldg.) of CCNU, Institute of Particle Physics, Huazhong (Central China) Normal University, Wuhan 430079, P. R. China

16:30-16:55

Electroweak Chiral Lagrangian for TC2 models

Speaker

Qing WANG

16:55-17:10

FCPPL ATLAS projects: 2008, 2009 and future

Speaker

Shan JIN

17:10-17:35

Progress on top physics studies at ATLAS

Speaker

Bruno MANSOULIE

17:35-18:00

Physics progress in the ATLAS IN2P3-CPPM/ACC project

Speaker

Chengguang ZHU

18:00-18:15

Progress on ttH/WH studies at ATLAS

Speaker

Huaqiao ZHANG

18:15-18:30

Progress on single top study at ATLAS

Speaker

Cunfeng FENG

18:30
