

Raymond (53 y):

“My most efficient period as physicist was between 30 and 40 years. I already had enough experience to avoid pitfalls and still full computing power.”

physics – alpine ski touring

Raymond (65 y):

“There is only one objective criterion concerning a physicist, his age.”

Daniel Kastler (77 y):

“A man dies several deaths, now the physicist in me is dead.”

Daniel died at the age of 89 years, Raymond to Liesl Kastler:

“I will have the honor to be first to follow Daniel.”
