

Session Program

11-13 Apr 2016

**11th Franco-Italian Meeting on B Physics:
New Promising Flavour Physics Research
Subjects in Theory and Experiment**

***Session 3 - Present and Future of existing
alternative models***

LPNHE-Paris, Charpak Amphitheatre
4 place Jussieu, Paris, France

Tuesday 12 April

14:15

Session 3 - Present and Future of existing alternative models

Session | Location: LPNHE-Paris, Charpak Amphitheatre, 4 place Jussieu, Paris, France

14:15-14:50

(Looking for) Hints for Physics Beyond the SM with ATLAS and CMS[25'+10']

Speakers

Erez Etzion, Erez Etzion

14:50-15:30

First Impressions at 13 TeV[30'+10']

Speakers

Alex Pomarol, Alex Pomarol

15:30-16:00

Coffee Break

16:00-16:30

What b-physics can say about BSM models [25'+5']

Speaker

Anton Poluektov

16:30-16:55

Hadronic uncertainties in B to K*ll [20'+5']

Speakers

Marco Fedele, Marco Fedele

16:55-17:20

Which New Physics in B to K*ll?[20'+5']

Speakers

Nazila Mahmoudi, Nazila Mahmoudi, Nazila Mahmoudi

17:20-17:55

The role of flavor in physics BSM[25'+10']

Speakers

Sebastien Descotes-Genon, Sébastien Descotes-Genon

18:15
