

The 12th International Workshop Dark Side of the Universe

Tuesday, 26 July 2016

Alternatives to LambdaCDM Cosmology - Egget auditorium in the UiB Student Center (16:30 - 17:45)

time	[id] title	presenter
16:30	[32] Sterile neutrino dark matter production from scalar decay	SCHMIDT, Michael
16:45	[60] Cosmological implications of the NMSSM domain wall decay	SETO, Osamu
17:00	[22] Finding the Missing Dwarfs: a challenge to CDM?	TRUJILLO-GOMEZ, Sebastian
17:15	[105] Enhancing dark-matter self interaction by a Higgs resonance	GRZADKOWSKI, Bohdan
17:30	[64] Coherent fields in cosmology	L. MAROTO, Antonio

Friday, 29 July 2016

Alternatives to LambdaCDM Cosmology - Egget auditorium in the UiB Student Center (14:45 - 15:35)

time	[id] title	presenter
14:45	[118] Anomalies and tensions in current cosmological data and hints for new physics	MELCHIORRI, Alessandro
15:05	[38] Cosmological Aspects of Spontaneous Baryogenesis	KOBAYASHI, Takeshi
15:20	[19] Turnaround radius in an accelerated universe in Einstein and in modified gravity	FARAONI, Valerio
