## Plato and Modern Physics

*Saturday 17 September 2016 09:30 (1 hour)*

The talk is devoted to the discussion why modern fundamental physics is closer to the objective idealism of Plato than to the Aristotelian empiricism, after more than 2 thousand years of the domination of the latter in classical physics.

### Summary

**Presenter:** MEISSNER, Krzysztof (Institute of Theoretical Physics, University of Warsaw)

**Session Classification:** [Phil] Philosophy and cutting edge of physics and cosmology
