

Session Program

21-23 Mar 2016

Mini MeVArc meeting
Overview presentations

CERN, 6/2-004

Monday 21 March

14:00

Overview presentations

Session | **Location:** CERN, 6/2-004**14:00–14:05** **Welcome and Introduction****14:05–14:35** **Modeling of vacuum breakdowns at University of Helsinki****Speaker**

Flyura Djurabekova

14:35–15:05 **Vacuum arc studies at the Hebrew University of Jerusalem****Speaker**

Yinon Ashkenazy

15:05–15:35 **Introduction to the CLIC high-gradient development program****Speaker**

Walter Wuensch

15:35–16:05 **Coffee****16:05–16:35****RF Breakdown analysis for space microwave components in realistic scenarios: digital modulated signals. Application to Galileo Navigation system****Speaker**

Benito Gimeno

16:35–17:05 **High-Gradient Electrode Study for Pulsed Electron Gun****Speaker**

Martin Paraliev

18:00
