

# QCD studies with jets at Run II

## Thursday, 28 January 2016

**Theory: Phenomenology & Prospect - 354/1-019 (14:00 - 18:30)**

| time  | [id] title  | presenter                  |
|-------|---|----------------------------|
| 14:00 | [20] Threshold resummation (20 + 10)                                | CARRAZZA, Stefano          |
| 14:30 | [15] Prospects of jet measurements for PDF determinations (20 + 10) | MOCH, S.                   |
| 15:00 | [14] Jet calculations in the small-radius limit (20 + 10)           | DREYER, Frederic Alexandre |
| 15:30 | Coffee  |                            |
| 16:00 | [16] EWK corrections (20 + 10)                                      | Dr HUSS, Alexander         |
| 16:30 | [18] Parton shower beyond the classical picture (20 + 10)           | NAGY, Zoltan               |
| 17:00 | [17] TMD parton distributions (20 + 10)                             | HAUTMANN, Francesco        |
