Searches for rare charm decays at LHCb

Friday, July 7, 2017 5:15 PM (15 minutes)

Following the hints for deviations from the Standard Model in rare B meson decays, searches for rare and forbidden decays of charmed hadrons become a hot topic again. We present recent results on rare D^0 and L_c decays.

Experimental Collaboration

LHCb

Presenter: MITZEL, Dominik Stefan (Ruprecht-Karls-Universitaet Heidelberg (DE))

Session Classification: Flavour and symmetries

Track Classification: Flavour Physics and Fundamental Symmetries
