Measurement of fermionic couplings of the SM Higgs boson using the bb , $\tau\tau$ and $\mu\mu$ decay channels with the ATLAS detector

Thursday 6 July 2017 10:45 (15 minutes)

The latest results on the measurement of the cross sections and couplings of the Higgs boson in the fermionic decay channels to bb , $\tau\tau$ and $\mu\mu$ with the ATLAS detector are presented, using approximately 36 fb^{-1} of pp collision data collected at 13 TeV.

Experimental Collaboration

ATLAS

Author: ROZEN, Yoram (Technion (IL))

Presenter: WANG, Song-Ming (Academia Sinica (TW))

Session Classification: Higgs and new physics

Track Classification: Higgs and New Physics
