## Women in Science and Engineering at Syracuse University

*Friday, 7 July 2017 17:15 (15 minutes)*

The WiSE program at Syracuse University encompasses a broad spectrum of activities designed to develop the unique strengths and overcome the challenges that women in science, technology, engineering, and mathematics (STEM) face at every stage of their education and career, from the beginning of their undergraduate studies to accomplished professional roles.

Key goals of Wise are an improvement of the persistence in STEM of undergraduate women through an emphasis on research, support career development and professional goals for women graduate students and postdoctoral research associates, improve career and personal productivity and balance for women STEM faculty.

The unifying vision of this broad program is the goal of building a strong community and social network for women in STEM.
