The Status of IHEP Site

Monday 18 April 2016 11:30 (15 minutes)

The report talks about both hardware and software upgrade that IHEP site has done. It discusses about the problem the site suffered during the last half year. It also gives a brief introduction about the current status of IHEP monitoring system and cloud computing. At last, it shows some new user services the site provided.

Length of presentation (minutes, max. 20)
