Ideas for a journal around "Computing and Software for data-intensive physics"

Thursday 21 April 2016 12:00 (25 minutes)

In this presentation, we present first ideas about a journal around topics in "Computing and Software for data-intensive physics"
- Why a place for publications?
- For whom to publish?
- Which topics?
- Comparison to other HEP computing related events?
- Who is behind?
- Status?

... waiting for input and ideas from the community - YOU!

Length of presentation (minutes, max. 20)
