PDSF Site Report

Tuesday, 19 April 2016 10:00 (15 minutes)

The relocation of PDSF to a new building at LBNL has mostly completed. The lessons learned during the moving process will be described. A new petabyte storage system using EOS has been put on line for the ALICE collaboration. Like many aspects of system administration, deploying new software takes much longer than treading a familiar path and we will describe what we would do for the next deployment.

Length of presentation (minutes, max. 20)

15
