

Configuring HTCondor for ATLAS Multicore

Tuesday 1 March 2016 09:50 (20 minutes)

Configuring ARC/Condor for ATLAS Multicore

This talk will cover the specific measures used at the Liverpool grid site to provide multicore job slots for ATLAS using an ARC CE in front of a CONDOR batch system.

Summary

- Head node configuration
- Workernode configuration
- Provision for scheduling and draining
- Performance
- Alternatives
