INFN Multimedia Group

INFN Multimedia Group is responsible for video filming activity for AIDA-2020

- Established in 1997 as a collaboration between INFN Bologna and the Physics Department of Bologna University it became a National Service in 1999 under INFN CNAF coordination.
- 5 INFN employees located in Bologna, spending the 10-15% of their working time in multimedia activities.
- In charge of all multimedia related aspects for the main public events, ie: video streaming recording and production of videos and videoconferences.

S.Z.

AIDA-2020

Video Script definition

The two main objectives of AIDA videos are:

- **Advertise the Transnational Access programme**
- **Provide potential users with information on which facility is most appropriate for their needs**

AIDA-2020

Script for the Site video shooting

- General images of facility locations
- Introduction from the Facility Coordinator
- Introduction to the laboratory
- AIDA-2020 related facilities and devices
- How will the users be able to use the facility

AIDA-2020 Commitment

- **Acquisition of video material in the main AIDA-2020 Facilities (On Field):**
 - Filming facility location, interviews with Facility Coordinator and users
 - 2-3 Days Business-Trip (1 full day of filming)
- **Post-production of 3-4 minute videos (Bologna)**
 - Video editing
 - ~8-10 hours for each video
 - NOTE: Audio Tracks composed and realized By Stefano Meneghini.

Equipment

- Full HD equipment
- Semiprofessional camera, normally used with a tripod
- Portable camera with a good quality optical stabilizer
- Sport camera with a steady cam
- Reflex Camera

Current progress

Site	Facility	Nation	Footage	Post Prod	TRIP
CERN	PS&SPS	International	TO DO	TO DO	Red
CERN	IRRAD	International	TO DO	TO DO	
CERN	GIF++	International	TO DO	TO DO	
DESY	DESY-II	Germany	DONE	TO DO	Green
JSI	TRIGA REACTOR	Slovenia	DONE	DONE	Green
KIT	KAZ	Germany	DONE	TO DO	Green
