

3rd International Conference on the Initial Stages in High-Energy Nuclear Collisions (InitialStages2016)

Tuesday, 24 May 2016

Initial stages and equilibration - Grande Anfiteatro (09:00 - 10:30)

-Conveners: Alexander Kovner

time	[id] title	presenter
09:00	[120] Particle production near $t = 0$ in Proton-Nucleus and Nucleus-Nucleus collisions	MUELLER, Alfred
09:30	[121] Particle production at $\tau=0$	LEE, Yen-Jie
10:00	[124] Experimental signatures of equilibration beyond the success of hydro	FLORIS, Michele

Initial stages and equilibration - Grande Anfiteatro (11:00 - 13:00)

-Conveners: David d'Enterria

time	[id] title	presenter
11:00	[105] Progress in higher-order CGC computations	TRIANAFYLLOPOULOS, DIONYSIS
11:30	[122] Equilibration in weak coupling approaches	SCHLICHTING, Soeren
12:00	[123] Strongly coupled approaches to equilibration	MATEOS, David
12:30	[125] Early time dynamics: pressure and 3+1D flow from classical gluon fields	FRIES, Rainer
