

High Energy Particle Physics Workshop 2016

Wednesday, 10 February 2016

Presentation session V (09:00 - 10:40)

-Conveners: Dino Giovannoni

time	[id] title	presenter
09:00	[25] Next-to-leading order corrections to the elastic scattering of an electron off of a static scattering center	IBRAHIM, Abdullah
09:20	[26] The production of a heavy scalar H in association with top and anti-top quarks	MTHEMBU, Skhathisomusa
09:40	[27] Search for the Higgs boson in the di-photon decay in association with intermediate missing energy with the ATLAS detector	LIAO, Shell-May
10:00	[28] A high throughput ADC system for the PROMETEO test-bench of the ATLAS Tile Calorimeter	SPOOR, Matthew
10:20	[29] The ATLAS Tile Calorimeter hybrid demonstrator and test-beam activities at CERN	KUREBA, Chamunorwa Oscar
