

## **Session Program**

**20-24 Jun 2016**

## **Ninth CW and High Average Power RF Workshop**

### ***Solid state amplifiers 2***

Hôtel Mercure Président, Grenoble, France  
Grenoble, France

## Tuesday 21 June

16:00

### Solid state amplifiers 2: Solid state amplifiers 2

**Session** | **Location:** Hôtel Mercure Président, Grenoble, France, Grenoble, France | **Convener:** Jorn Jacob

16:00–16:30 **Solid state amplifier using a cavity combiner**

**Speaker**

Mr Michel Langlois

16:30–17:00

**High Power Solid State Power Amplifiers for the CERN LHC Injector Upgrade for SPS programme**

**Speaker**

Eric Montesinos

17:00–17:30

**Development of a cavity-type power combiner for 509 MHz solid state amplifier**

**Speaker**

Takahiro Inagaki

17:30–18:00

**Preliminary measurements of eight solid-state modules of the 10 kW pulsed power amplifier at 352 MHz under development at FREIA**

**Speaker**

Dragos Dancila

18:00
