W2-1 Biomechanics and Fluid Dynamics (DPMB) / Biomécanique et dynamique des fluides (DPMB) - Colonel By B012

(13:15 - 14:45)

-Conveners: Christopher Bergevin

time	[id] title	presenter
13:15	[1015] On-chip evaluation and manipulation of directed cell migration	Prof. LIN, Francis
13:30	[1297] Effect of temperature on the generation of acoustic harmonics in a tissue-mimicking liquid	Mr MARAGHECHI, Borna Mr SHASWARY, Elyas
13:45	[1320] The Translocation Time through a Nanopore with an Internal Cavity is Minimal for Polymers of Intermediate Length	Mr MAGILL, Martin
14:00	[1343] Flow-induced beta-sheet formation in silk fibroin solutions	BAGHERI, Mehran
14:15	[1345] Differential dynamic microscopy studies of collective cell dynamics	HARDEN, James L.
