Shift notes from the past week:

=====

ADCoS/CRC reports from the ADC Weekly and ADCoS meetings:
No meeting this week (Software Week at CERN)

1) 2/25: New pilot release from Paul (v64.4). Details here:

http://www-hep.uta.edu/~sosebee/ADCoS/pilot-release-v64_4-2_25_16.pdf

2) 2/25: BNL - jobs failing due to CA files/authentication issue - from Michael:

Currently all ATLAS jobs at BNL have failed/are failing because of authentication problems (the CA distribution directory maintained in OASIS (OSG CVMFS service) turned empty at ~15:00 UTC). The problem is being investigated by OSG staff; a solution was just put in place.

<https://atlas-logbook.cern.ch/eLog/ATLAS+Computer+Operations+Logbook/56580>

3) 2/26: MWT2 - squid service down. The problem was due to some changes in the IndianaGigaPOP involving ESnet. Networking issue resolved - service back to available.

https://ggus.eu/index.php?mode=ticket_info&ticket_id=119775 was closed, eLog 56599.

4) 3/1: MWT2 squid service unavailable. Lincoln reported the problem was fixed as of ~23:30 UTC later in the day, but the service came back in the monitoring at ~15:30 UTC on 3/2. Will close https://ggus.eu/index.php?mode=ticket_info&ticket_id=119874 after a few more hours of uptime. eLog 56628.

5) 3/1: ADC Weekly meeting:

No meeting this week (Software Week at CERN)

Follow-ups from earlier reports:

None
