

Session Program

15-20 May 2016

CALOR 2016

Large Hadron Collider

EXCO in Daegu, Republic of Korea

Monday 16 May

13:40

Large Hadron Collider

Session | **Location:** EXCO in Daegu, Republic of Korea | **Convener:** Francesca Nessi-Tedaldi

13:40–14:05 **ATLAS Tile calorimeter calibration and monitoring systems**

Speaker

Arthur Chomont

14:05–14:30 **ATLAS Tile Calorimeter time calibration, monitoring and performance**

Speaker

Tomas Davidek

14:30–14:55 **The CMS Calorimeter Trigger for LHC Run II**

Speaker

Aaron Bundock

14:55–15:20

Overview of energy reconstruction and electron and photon performances with the CMS ECAL in Run II

Speaker

Rafael Teixeira De Lima

15:20

15:50

Large Hadron Collider

Session | **Location:** EXCO in Daegu, Republic of Korea | **Convener:** Nural Akchurin

15:50–16:15

Study of TileCal scintillators irradiation using the Minimum Bias integrators

Speaker

Cora Fischer

16:15–16:40

Performance of the ATLAS Liquid Argon Calorimeters in LHC Run-1 and Run-2

Speaker

Jose Feliciano Benitez

16:40–17:05

The role of the CMS electron and photon trigger in the study of the Higgs boson and other resonances

Speaker

Mr Thomas Strebler

17:05–17:30

Performance of the CASTOR calorimeter at CMS during Run II of LHC

Speaker

Mr Merijn van de Klundert. CMS collaboration

17:30
