

Session Program

15-20 May 2016

CALOR 2016

Calorimetric systems at non-accelerator

EXCO in Daegu, Republic of Korea

Tuesday 17 May

10:50

Calorimetric systems at non-accelerator

Session | Location: EXCO in Daegu, Republic of Korea | Convener: Tao Hu

10:50-11:10

Background Simulation of a search for neutrinoless double beta decay of Mo-100

Speaker

Young Soo Yoon

11:10-11:30

CaloCube: a innovative homogeneous calorimeter for the next-generation space experiments

Speaker

Lorenzo Pacini

11:30-11:50

A metallic magnetic calorimeter with scintillation crystal for rare event search experiment

Speaker

Dr Geon-Bo Kim

11:50
