

# Siam Physics Congress 2016

## Wednesday, June 8, 2016

### Session V: Tr. 8 Instrumentation, Metrology and Standards - Room E1 (11:00 AM - 12:30 PM)

| time  | [id] title   | presenter                       |
|-------|--|---------------------------------|
| 11:00 | <del>P15</del> Cooling Energy Distribution of Secondary Ions at the Travelling-wave Ion Guide by Helium and Molecular Nitrogen | Mr THOPAN, Prutchayawoot        |
| 11:15 | <del>P15</del> Effect of Liquid Viscosity on Particle Equilibrium Position in Straight Microchannel                            | Mr INTHAUD, Kullawat            |
| 11:30 | <del>P11</del> Development of mobile photometer for DNA quantitation using UV-LED.   | THAMTHINTHAI, Kathawut          |
| 11:45 | <del>P17</del> Temporal change in flatness of flat surface due to optical mounting and gravity                                 | Mr WIROTRATTANAPHAPHISAN, kitti |
| 12:00 | <del>P15</del> Effect of Liquid Viscosity on Particle Equilibrium Position in straight microfluidic channel                    | Mr INTHAUD, Kullawat            |
