

# Siam Physics Congress 2016

## Thursday, June 9, 2016

### Session XIX: Tr. 2 Astronomy, Astro physics and Cosmology - Room J1 (10:45 AM - 12:30 PM)

time	[id] title	presenter
10:45	<del>A14</del> [A14] Variability Study of Active Galactic Nuclei at Visible and X-ray Wavelength	Mr SURARITTIKUL, Pakawee Mr THONGMEEARKOM, Tinn
11:00	<del>A11</del> [A11] The study of scaling relations of massive galaxy clusters using weak gravitational lensing technique	Mr PHRIKSEE, Anirut
11:15	<del>A12</del> [A12] Spectroscopic study of the RX Hya – an Algol-type system with pulsating, mass-accreting component	Ms A-THANO, Napaporn
11:30	<del>A17</del> [A17] High-z Quasars Black Hole Mass Estimation via Photometric Reverberation Mapping	Ms PONGSUPA, Grittiya
11:45	<del>A16</del> [A16] Statistical Properties and Optical Followup of Fast Radio Bursts	WONGPHECAUXSON, Jompoj
