Dale Peters  
OAI6 Breakout Session  
Joining up Repositories  
18 June 2009

# What is the Confederation...?

- Permanent organisational backbone for European repository structure
  - *Geographic and thematic extension*
  - *Diffusion of DRIVER technology*
  - *Connect established communities of practice*
  - *Promote Open Access*
  - *Fill repositories with Open Access publications*

**...an integrated concept for organisation of the European Open Access repository landscape, in a virtual structure – beyond DRIVER project activities.**

# JISC/DRIVER/SURF *International* *Repositories Workshop, March 2009*

- Investigate appropriate organisational models for international repository organisation (IRO)
- Sustainable network of strategic partnerships
  - ⊙ *Membership / association / alliance*
  - ⊙ *Sponsorship / funding*
- Motivate sustainability
  - ⊙ *Separate DRIVER Confederation from IRO*
  - ⊙ *Distributed ownership, strong reputation, high impact*
- Define goals and strategic actions of IRO
  - ⊙ *Stakeholder groups*

# Vision statement

---

To enhance and progress the provision, visibility and application of research outputs through global networks of Open Access digital repositories.

# Proposal

- Forum for exchange best practice & reliable information on operational Open Access implementation activities and emerging repository developments;
- Develop and promote light-weight interoperability guidelines across regional and disciplinary infrastructures;
- Raise awareness among all stakeholders, including funding agencies, the research community, service providers and NGOs;
- Promote the repository manager profession across regions and disciplines;
- Establish sustainable business models for repositories and related services and activities;
- Flexible and independent organisational structure, to respond quickly to emerging trends and developments; and
- Assure the necessary degree of good governance.

# Benefits of international coordination

- **Researchers** become more aware of the benefits of Open Access and e-research,(and of what they need to do to gain those benefits);
- **Publishers** have an accepted international partner (alongside the Open Access Scholarly Publishers Association) with whom to discuss practical issues relating to changing scholarly communication;
- **Research managers and funders** have an accepted international partner with whom to have discussions about scholarly communication and research information infrastructure
- National associations of **repository managers** have a network of partner organisations with whom to collaborate

# Conceptual framework

## 1 – Vision/Mission/Objectives of IRO

## 2 – Participation

Categories (Members/ Partners/Allies/ Associates)

Member benefits and roles

## 3 – Activities

Advocacy, technical and policy recommendations, guidelines, certificates, training, etc.

## 4 – Governance

Board / National/Regional Representation / Working Groups

## 5 – Finance

Cost estimates?

How many organisations willing to pay an annual membership fee?

What amount?

# Action plan

| <b>ACTION</b> | <b>ACTIVITY</b>                                       | <b>COST</b>                | <b>TIMESCALE</b>  | <b>COMPLEXITY</b> |
|---------------|---|----------------------------|-------------------|-------------------|
| 1             | Define a clear Statement of Intent                    | Nil                        | April 09          | low               |
| 2             | Form concept around stakeholder needs and activities  | Nil                        | April 09          | medium            |
| 3             | Approach multiple agencies for funding and/or support | (Minimum) 170,000 EUR/year | April- October 09 | high              |
| 4             | Develop governance model based on relationships       | Nil                        | April - May09     | high              |
| 5             | Finance   | Nil                        | July –October 09  | medium            |
