

PSD9: The 9th International Conference on Position Sensitive Detectors

Monday, 12 September 2011 - Friday, 16 September 2011

Scientific Programme

Detectors for High Radiation and Extreme Environments

X-ray and Gamma-ray Detectors

Applications for Life Sciences and Biology

Applications in Astronomy, Planetary and Space Science

Applications in Medicine

Novel Photon Detection Systems

Applications in Nuclear Physics

Detectors for Synchrotron Radiation and Spallation Neutron Sources

Challenges in Security Imaging

Applications in Energy and Environment

Integration Technologies

Applications in Particle Physics

Novel Gas-based Detection Techniques

Applications in Condensed Matter

PET applications

Advances in Pixel Detectors

Detectors for FELs and other advanced light sources

Detectors and applications not covered elsewhere

Astrophysics

KTN

Opportunities for Knowledge Transfer
