

PSD9: The 9th International Conference on Position Sensitive Detectors

Thursday, 15 September 2011

Nuclear Physics (13:50 - 15:50)

-Conveners: Andrew Boston

time	[id] title	presenter
13:50	[108] Position Sensitive Detectors for Nuclear Structure Physics and their Applications	Dr BOSTON, Helen
14:30	[77] Spectra distortion by the interstrip gap in spectrometric silicon strip detectors	Dr EREMIN, Vladimir
14:50	[58] AGATA Detector Characterisation using the Liverpool Scanning Table	Dr MOON, Steven
15:10	[79] Methodology development for analysis of in-beam AGATA data	Ms FILMER, Fay
15:30	[75] Preliminary Compton imaging results of the AGATA A006 detector	Mr SLEE, Mike
