

Siam Physics Congress 2017

Thursday 25 May 2017

A14: Environment - Ballroom 3 (13:20 - 15:05)

-Conveners: Weeraphat Pon-on; Chatchawal Wongchoosuk

| time | [id] title | presenter |
|-------|--|------------------------|
| 13:20 | [80] effect of chemical composite, puffing temperature and moisture content on physical properties of puffed apple and potato | Mr TABTIANG, Surapit |
| 13:35 | [115] Observation of Cosmic Ray Variation with Atmospheric Water Vapor at Doi Inthanon | MUANGHA, Pradiphat |
| 13:50 | [130] Non-chemistry coupled PM10 modeling in Chiang Mai City, Northern Thailand: A fast operational approach for aerosol forecasts | Dr MACATANGAY, Ronald |
| 14:05 | [145] Drying of paddy rice by using two series of screw conveyor dryer | Mr YODRUK, Aswin |
| 14:20 | [219] Comparison of spectral ultraviolet irradiance measured from ground-based and satellite instruments at Nakhon Pathom province | Ms SRIWONGSA, Juthatip |
| 14:35 | [221] An investigation of cloud base height in Chiang Mai | Ms PEENGAM, Sahussa |
